

## MTScapes TURF Program

---

Early Spring Application—we will apply a pre-emergent herbicide along with a selective post-control herbicide to control crabgrass germination and any broadleaves that may be present

Mid-Spring Application—we will apply another pre-emergent herbicide to ensure weed control thru the coming Summer months along with a post-control herbicide to handle any weeds that may be present

Early Summer Application—we will be applying a high nitrogen fertilizer with slow release to feed your turf for vigorous color and growth during the grow season

Mid > Late Summer Application—we will apply another application of high nitrogen fertilizer for continue feeding thru the rest of Summer. This will help in building a thick and dense turf to avoid common turf diseases

Early Fall > Winter Application—we will apply a pre-emergent to control your annual winter weeds such as annual bluegrass, chic weed and henbit which commonly invade dormant turf

Winter Application—we will apply potash and lime as needed for your specific type of turf depending on its specific needs

\*\*\*\*\* for lawns with insects and turf disease additional applications can be applied for additional cost to customer

### Function Frequency Average by Month

	Jan	Feb	Mar	April	May	June	July	Aug	Sept	Oct	Nov	Dec	Total
<b>Service Functions</b>													
Mowing	1	1	3	4	4	5	4	4	5	2	3	1	<b>37</b>
Edging (Curb)	1	2	3	2	2	3	2	2	3	2	2	2	<b>26</b>
Edging (Bed)	1	1	2	2	2	2	2	2	2	1	2	1	<b>20</b>
Blowing	4	4	5	4	4	5	4	4	5	4	5	4	<b>52</b>
Weed Control Beds	1	1	2	4	5	4	5	5	4	3	1	1	<b>36</b>
Pruning				1	1	1	1	1	1				<b>6</b>
Pruning (Corrective)	1	1									1	1	<b>4</b>
Trashing / Leaf Rem.	4	4	5	4	4	5	4	4	5	4	5	4	<b>52</b>
