# Towns at Bridgehampton Homeowner's Association, Inc.

Thank you for your purchase of a Lennar Home! Below you will find the Design Guidelines for the Bridgehampton Homeowners Association, Inc. ("Association"). The Association's governing documents require that any modifications to the exterior of your home be approved by the Association.

These Design Guidelines are provided to you to help establish what modifications would generally be approved, however, each modification is reviewed on a case-by-case basis and based on your specific Lot. These guidelines are not intended to provide any preapproval and are subject to change.

All approvals are subject to the following conditions:

- 1. The change/improvement must not impede the flow of water in any drainage easement or swale.
- 2. For any portion construction in any easement, owner/applicant must hold the Association harmless for any costs associated with repair/replacement of change/improvement should the association or local municipality or local utility need to enter such easement.

At the end of this document you will find the Association's Request for Modification Form ("Form"). This form should be completed for any modification and returned to your Association Manager with Fieldstone Association Management. The completed form can be sent to:

When plans are required, they must be submitted with the Form. A Form is attached to these Standards. Additional Forms are available from Fieldstone Association Management.
