

Ashford Place at Dering Townhome Association, Inc.

Thank you for your purchase of a Lennar Home! Below you will find the Design Guidelines for the Ashford Place at Dering Townhome Association, Inc. (“Association”). The Association’s governing documents require that any modifications to the exterior of your home be approved by the Association.

These Design Guidelines are provided to you to help establish what modifications would generally be approved, however, each modification is reviewed on a case-by-case basis and based on your specific Lot. These guidelines are not intended to provide any preapproval and are subject to change.

All approvals are subject to the following conditions:

1. The change/improvement must not impede the flow of water in any drainage easement or swale.
2. For any portion construction in any easement, owner/applicant must hold the Association harmless for any costs associated with repair/replacement of change/improvement should the association or local municipality or local utility need to enter such easement.

At the end of this document you will find the Association’s Request for Modification Form (“Form”). This form should be completed for any modification and returned to your Association Manager with Fieldstone Association Management. The completed form can be sent to:

When plans are required, they must be submitted with the Form. A Form is attached to these Standards. Additional Forms are available from Fieldstone Association Management.

DESIGN GUIDELINES

DESIGN GUIDELINE 1

Fences

- ***Lots 1-26 are front-entry which will allow for a backyard that can be fenced.***
- ***Units 27-39 are rear-entry with no backyard and therefore, no fence allowed***
- Chain link fences or chain link dog runs are not permitted.
- The following types of fences may be approved for installation:

 - Length: not to extend past the property line of home
 - Note: Not all homes will be able to install a fence all the way to the back end of their property line. This may be due to easements, a line of disturbance, zoning buffers, etc. Discuss with the City of Chamblee for your individual property.
 - Width: not to extend left and right sides of home
 - Note 1: If a tree is planted between two property lines and the homeowner(s) wish to install a fence, it must be relocated (NOT REMOVED). Homeowner must seek HOA approval prior to moving any existing tree(s). Trees locating in zoning buffers may not be entirely removed/replaced (unless they are dead or dying).

 - The minimum post size shall be 4 X 4 inches and must have two 2 X 8 inch rails or three 2 X 6 inch rails per section.
- Wooden fences may be stained the following Sherwin Williams colors:

 - NOTE: If you stain your fence, the deck must also be stained to match the same color.
- Door: All fences must have a rear-access door to allow the landscapers to enter inside for scheduled landscaping work, as well as any other exterior maintenance work done by the HOA. If a homeowner's backyard is not accessible due to a fence, the homeowner will be responsible for maintaining their yard at their own cost.
- Please note: Easements and buried utility lines may be present. Homeowner is responsible for verifying this with the City of Chamblee during the application time and completing installs at their own risk. If damage occurs to a property due to inappropriate installation of a fence by a homeowner, the homeowner will be responsible for incurring the cost for repairs.
