Thank you for your purchase of a Lennar Home! Attached you will find the Design Guidelines for the Artisan Townhome Association, Inc. ("Association"). The Association's governing documents require that any modifications to the exterior of your home be approved by the Association.

These Design Guidelines are provided to you to help establish what modifications would generally be approved, however, each modification is reviewed on a case-by-case basis and based on your specific Lot. These guidelines are not intended to provide any preapproval and are subject to change by Lennar and/or the Association.

All approvals are subject to the following conditions:

1. Change/improvement must not impede the flow of water in any drainage easement or swale.
2. For any portion of construction in any easement, owner/applicant must hold the Association harmless for any costs associated with repair/replacement of change/improvement should the Association or local municipality or local utility need to enter such easement.

At the end of this document you will find the Association's Request for Modification Form. This form should be completed for any modification and returned to your Association Manager. The completed form can be sent to:

## A. DEFINITIONS

**The Protective Covenants** contain design review authority and broad, general objectives of the community association to protect property values and integrity of the subdivision.

**The Design Guidelines**, which may be modified from time to time, have been developed to supplement and amplify the Covenants. The Design Guidelines serve two purposes:

1. To assist the homeowner, both in designing the proposed improvement and in determining how to apply for Approval;
2. To provide criteria for consistent decisions by The Association.

## **OVERALL GOAL**

The overall goal of the Protective Covenants and Design Guidelines is to keep the community an attractive and desirable place in which to live.

## B. APPLICATION INFORMATION

1. The following exterior additions, improvements or modifications do **not** require a Request for Modification Review Form to be submitted **provided** certain conditions are met:

Flag Poles mounted to front of unit (Guideline 2)

Children's Wading Pools (Guideline 6)

If you are unsure whether a Request for Modification Review Form needs to be turned in, please submit one!

2. A completed form must be submitted to the Association for all other types of modifications. **The verbal approval of any sales agent, developer, Lennar employee, or Association representative is NOT sufficient. All approvals must be in writing.** When plans are required, they must be submitted with the form. A form is attached to these guidelines. Additional forms are available from the Association' and the Owner's Portal.
3. The Protective Covenants state, "If the Association fails to approve or to disapprove submitted plans and specifications within thirty (45) days after the plans and specifications have been submitted to it, the foregoing will be deemed approved." Any homeowner applying this rule must be able to prove in writing that any plans and specifications were received by the Association as a completed modification packet.

### **ALL REQUIRED PERMITS**

1. All homeowner Modification Request Forms that involve construction or alteration of a structure that requires a building permit from the local municipality(s) having jurisdiction must be submitted and reviewed for compliance with the Design Guidelines by the Association based only on the Design Guidelines, not the permitting requirements of the municipality nor any State or Federal governing agency. All required building permits must be granted by the local municipality having jurisdiction **before** submitting for association approval.
2. It is the responsibility of the homeowner to confirm if a building permit is required the local municipality for the requested structure. Board of Directors do not have the authority or the ability to inform homeowners if municipality requires a building permit.

Lennar, the Association and the Board of Directors shall not be held responsible for any modification or alteration constructed by or on the behalf of homeowners who do not obtain the proper permits. This is regardless of whether the structure is approved by the HOA, as the Association makes decisions based solely on the Design Guidelines.

5. Keep in mind that in the event a permit is successfully obtained from a local municipality or county, the Modification Request Form must be submitted, reviewed and approved before work can begin. A permit does not guarantee approval by Lennar/the Association/Board of Directors.

**The contents of these guidelines, and any actions of Lennar or the Association, Board of Directors or its agents, are not intended to be, and should not be construed to be an approval of the adequacy, reasonableness, safety, structural integrity, or fitness for intended use of submitted plans, materials, or construction, nor ensuring compliance with building codes, zoning regulations, or other governmental requirements.
